

QUARTERLY ACTIVITIES REPORT

During the Quarter

- On-the-ground activity at the Company's Angolan projects remained suspended for the entirety of the quarter due to COVID-19.
- The COVID-19 situation worsened in Angola during October 2021 with the delta strain taking hold. The number of new cases on a daily basis peaked in early October reaching a high of 143 per day; and saw a corresponding increase in the number of deaths. In total, Angola has reported 64,033 infections and 1,702 coronavirus-related deaths. The State of Public Calamity has been extended to 31 October 2021. With only 5.9 million doses of COVID vaccines administered so far (only 9.3% of the population assuming double vaccination) travel into Angola or within western Africa will likely be subject to restrictions for some time.
- Angola's land and sea borders remain closed. Air border is open for returning Angolan citizens and foreigners from selected countries subject to having had a negative COVID-19 test. Restrictions on travel and gatherings within Angola continue but are being relaxed gradually.
- The Company deems it currently unsafe for its personnel to travel to Angola.
- As such, the Phase 3 Drilling Program at the CdB Copper Project aimed at expanding the size of the resource quickly and cost effectively remains on hold. The Company is looking to commence Phase 3 as soon as the situation allows. Practically, the earliest this can now occur is May 2022 after the raining season ends.
- During the quarter, the Company continued to have informal discussions with parties in relation to equity participation, joint venture, project earn-in as the Company seeks to shore up its medium to long term funding requirements.
- Copper spot price finished the quarter lower at US\$4.09/lb (30 June 2021: US\$4.30/lb) but has since risen sharply to be currently trading at US\$4.55/lb as at the date of this report (*Source: Market Index*)

Background

- VDM holds two exploration projects in Angola. The CdB Project is more advanced and has a JORC 2012 compliant mineral resource estimate (refer following). The Cage Bengo Project is prospective for gold and a range of other metals and minerals but is best described as greenfields with no work having yet been conducted by VDM.
- On 26 November 2020, VDM announced its maiden copper Mineral Resource Estimate for CdB Copper Project of 18.4 Mt @ 1.0% Cu for 183,845t of copper, comprising:
 - Measured + Indicated: 13.467Mt @1.02% Cu for 137,590t of copper;
 - Inferred: 4.937Mt @0.94% Cu for 46,355t of copper.

Refer Appendices 1 and 2 for more information relating to the Company's projects.

Exploration Activities During the Quarter

In accordance with the requirements of ASX Listing Rule 5.3.1 the Company advises that there was **no substantive exploration activity conducted during the quarter**.

Schedule of Mineral Tenements

In accordance with the requirements of ASX Listing Rule 5.3.3 the Company provides the following information:

Project	Location	Tenement Type	Tenement Reference	VDM's Interest (%)
Cage Bengo	Angola	Prospecting Title	048/07/03	55.25%
Cachoeiras do Binga	Angola	Prospecting Title	N09/72/PC/AB	55.25%

No tenements were acquired or disposed of during the quarter ended 30 September 2021 and there were no changes in the ownership (of existing tenements) since the end of the previous quarter.

Quartz Estate Property South Headland

The Company holds a 52% interest in Lot 501, Greenfield Street, Boodarie in South Headland in Western Australia, first acquired in 2008. Lot 501, colloquially referred to as the Quartz Estate, is a development property which comprises 92.485ha of vacant land with conditional WAPC approval for a subdivision of up to 132 rural lifestyle/residential lots. The property is zoned "Residential" (R2.5) and "Rural Residential".

With reports that the South Headland property market has improved significantly in recent months, the Company has recently decided, together with the other partners in the property, to list the property for sale at an asking price of \$2.95 million.

The Company will provide further updates when material information comes to hand.

Mandurah Apartment

The Company holds a 100% interest in an apartment located at 20/15 the Palladio, Mandurah that is currently leased to a third party. The lease is due to expire during January 2022 at which time the Company expects to list the property for sale. It was valued back in May 2021 at around \$1.1 million.

Related Party Payment Information

In accordance with the requirements of ASX Listing Rule 5.3.5 the Company advises that during the quarter ended 30 Sep 2021 the following payments were made to directors of the Company and their associates in respect of directors' fees (inclusive of superannuation) and consulting fees:

Name	Position	\$	Notes
Mr Luk	Non-Executive Chairperson	-	Salary inclusive of superannuation
Dr Hua	Executive Director	-	Salary inclusive of superannuation
Mr Guo	Non-Executive Director	-	Salary inclusive of superannuation
Mr Noid	Non-Executive Director	-	Salary inclusive of superannuation
Mr Fry	Director, Company Secretary	22,187	Director fee plus consulting fee for provision of company secretarial (Mar - Jun 2021)
		22,187	

As previously reported in the March quarter activities report, all non-executive Directors and Dr Hua have agreed to suspend their entitlement to directors' fees in order to conserve existing cash resources.

This report has been authorised for release by Michael Fry – Director/Company Secretary.

Competent Person Statement

Exploration Results

The information in this release that relates to exploration Results of the CDB Copper Project is extracted from reports released to the Australian Securities Exchange (ASX) on 15 March 2019 titled “Assay Results Confirm High Grade Copper Mineralisation at CdB Copper Project” and on 26 November 2020 titled “Phase 2 Assay Results Confirm Further High Grade Copper Mineralisation at CdB Project” and are available to view at www.vdmgroup.com.au and for which Competent Persons’ consents were obtained. Each Competent Person’s consent remains in place for subsequent releases by the Company of the same information in the same form and context, until the consent is withdrawn or replaced by a subsequent report and accompanying consent.

The Company confirms that is not aware of any new information or data that materially affects the information included in the original ASX announcements released on 15 March 2019 and 26 November 2020.

Mineral Resources

The information in this report which relates to Mineral Resources is extracted from a report released to the Australian Securities Exchange (ASX) on 26 November 2020 titled “VDM Delivers Maiden Copper Resource at CdB Copper Project” which was based on information compiled by Ms Bonnie (Yanfang) Zhao and Dr Yiefei Jia, full time employees of SRK Consulting (China) Ltd and respectively, a Member and a Fellow of the Australasian Institute of Mining and Metallurgy. Each has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which they are undertaking to qualify as Competent Persons as defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources, and Ore Reserves”. Ms Zhao and Dr Jia consented to the reporting of the information in the form and context in which it appears. Those consents remain in place for subsequent releases by the Company of the same information in the same form and context, until the consent is withdrawn or replaced by a subsequent report and accompanying consent.

The Company confirms that is not aware of any new information or data that materially affects the information included in the original ASX announcement released on 26 November 2020, and, in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the original ASX announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons’ findings are presented have not been materially modified from the original ASX announcement.

Disclaimer

This report has been prepared by VDM Group Limited (“Company”). The material contained in this report is for information purposes only. This release is not an offer or invitation for subscription or purchase of, or a recommendation in relation to, securities in the Company and nether this release nor anything contained in it shall form the basis of any contract or commitment.

This report may contain forward-looking statements. Forward-looking statements include, but are not limited to, statements concerning VDM Group Limited’s business plans, intentions, opportunities, expectations, capabilities and other statements that are not historical facts. Forward-looking statements include those containing such words as could-plan-target-estimate-forecast-anticipate-indicate-expect-intend-may-potential-should or similar expressions. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, and which could cause actual results to differ from those expressed in this report. Because actual results might differ materially to the information in this report, the Company does not make, and this report should not be relied upon as, any representation or warranty as to the accuracy, or reasonableness, of the underlying assumptions and uncertainties. Investors are cautioned to view all forward-looking statements with caution and to not place undue reliance on such statements.

The report has been prepared by the Company based on information available to it, including information from third parties, and has not independently verified. No representation or warranty, express or implied, is made to the fairness, accuracy or completeness of the information or opinions contained in this report.

The Company estimates its reserves and resources in accordance with the Australasian Code for Reporting of Identified Mineral Resources and Ore Reserves 2012 Edition (“JORC Code”), which governs such disclosures by companies listed on the Australian Securities Exchange.

Appendix 1: About CdB Copper Project

- 55.25% owned by VDM;
- Project area covers 3,854kms², and is ~32kms from East to West and ~129kms from North to South;
- Geology shows characteristics of a typical central African sediment-hosted copper deposit.

Location

The CdB Project is located in the central coastal region of Angola ~385km south of the Angolan capital city of Luanda.

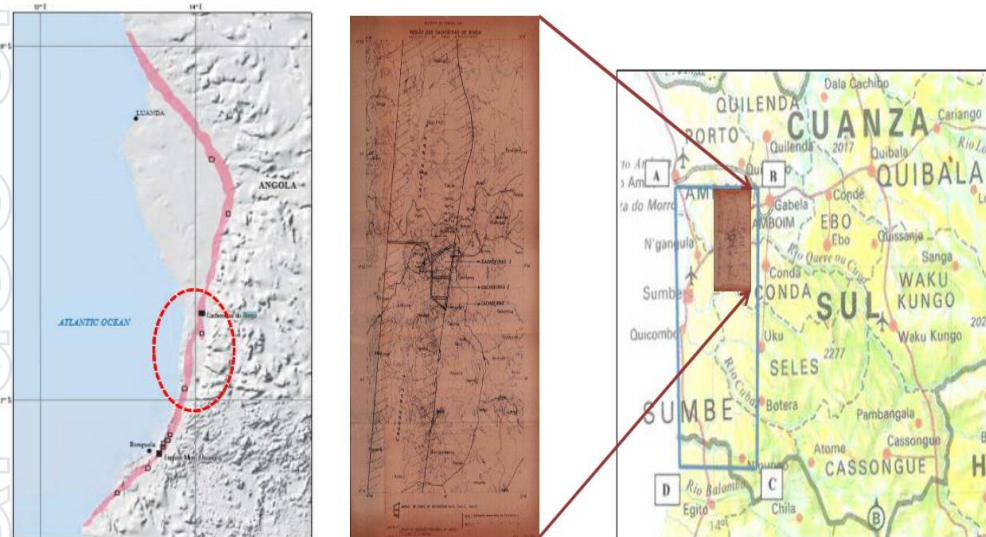

Figure 1: Location Map - CdB Project

Work Performed by VDM

- VDM's Phase 1 drilling program at CdB was conducted during calendar year 2018 and comprised 41 holes for a total of 3,903.30 metres. 843 samples were collected and sent for assay with the results released to market via ASX announcement on 15 March 2019 confirming presence of high-grade copper mineralisation.
- VDM's Phase 2 drilling program commenced on 6 May 2019 and was completed in late November 2019 with a total of ninety-three (93) holes having been drilled for 5,690.70 metres.
- Phase 2 drill-holes were largely to a depth of about 60 metres and were targeting near to surface mineralisation. Of the 93 holes drilled, four holes were of between 120m and 150m in length and were drilled for structural and hydrological purposes.
- 779 samples were prepared for assay and despatched to a Chinese laboratory.
- Assay results from the Phase 2 Drill Program were received and reported to ASX on 26 November 2020, and the highlights were:
 - Fifty-four (54) of the ninety-three (93) holes returned assays grading better than 0.5% Cu.
 - High-grade mineralisation generally intersected in a 40m zone that extends from ~40m below surface to ~80m beneath surface.
 - Results overall were better for Phase 2 with 13.9% of samples returning grades of more than 1% copper, as compared to 5.7% under Phase 1.
- Better assays include:
 - 8.64m @ 2.60% Cu from 53.961m, including 1.1m @ 4.98% Cu from 61.47m in Hole 10 (located in Area 3);
 - 3.15m @ 3.60% Cu from 35.20, including 1.08m @ 5.5% Cu from 37.27m in Hole 25 (located in Area 3); and
 - 4m @t 2.13% Cu from 34m in Hole 16 (located in Area 3).

A map illustrating the grade distribution of assay results from both Phase 1 and 2 is set out as Figure 2 below:

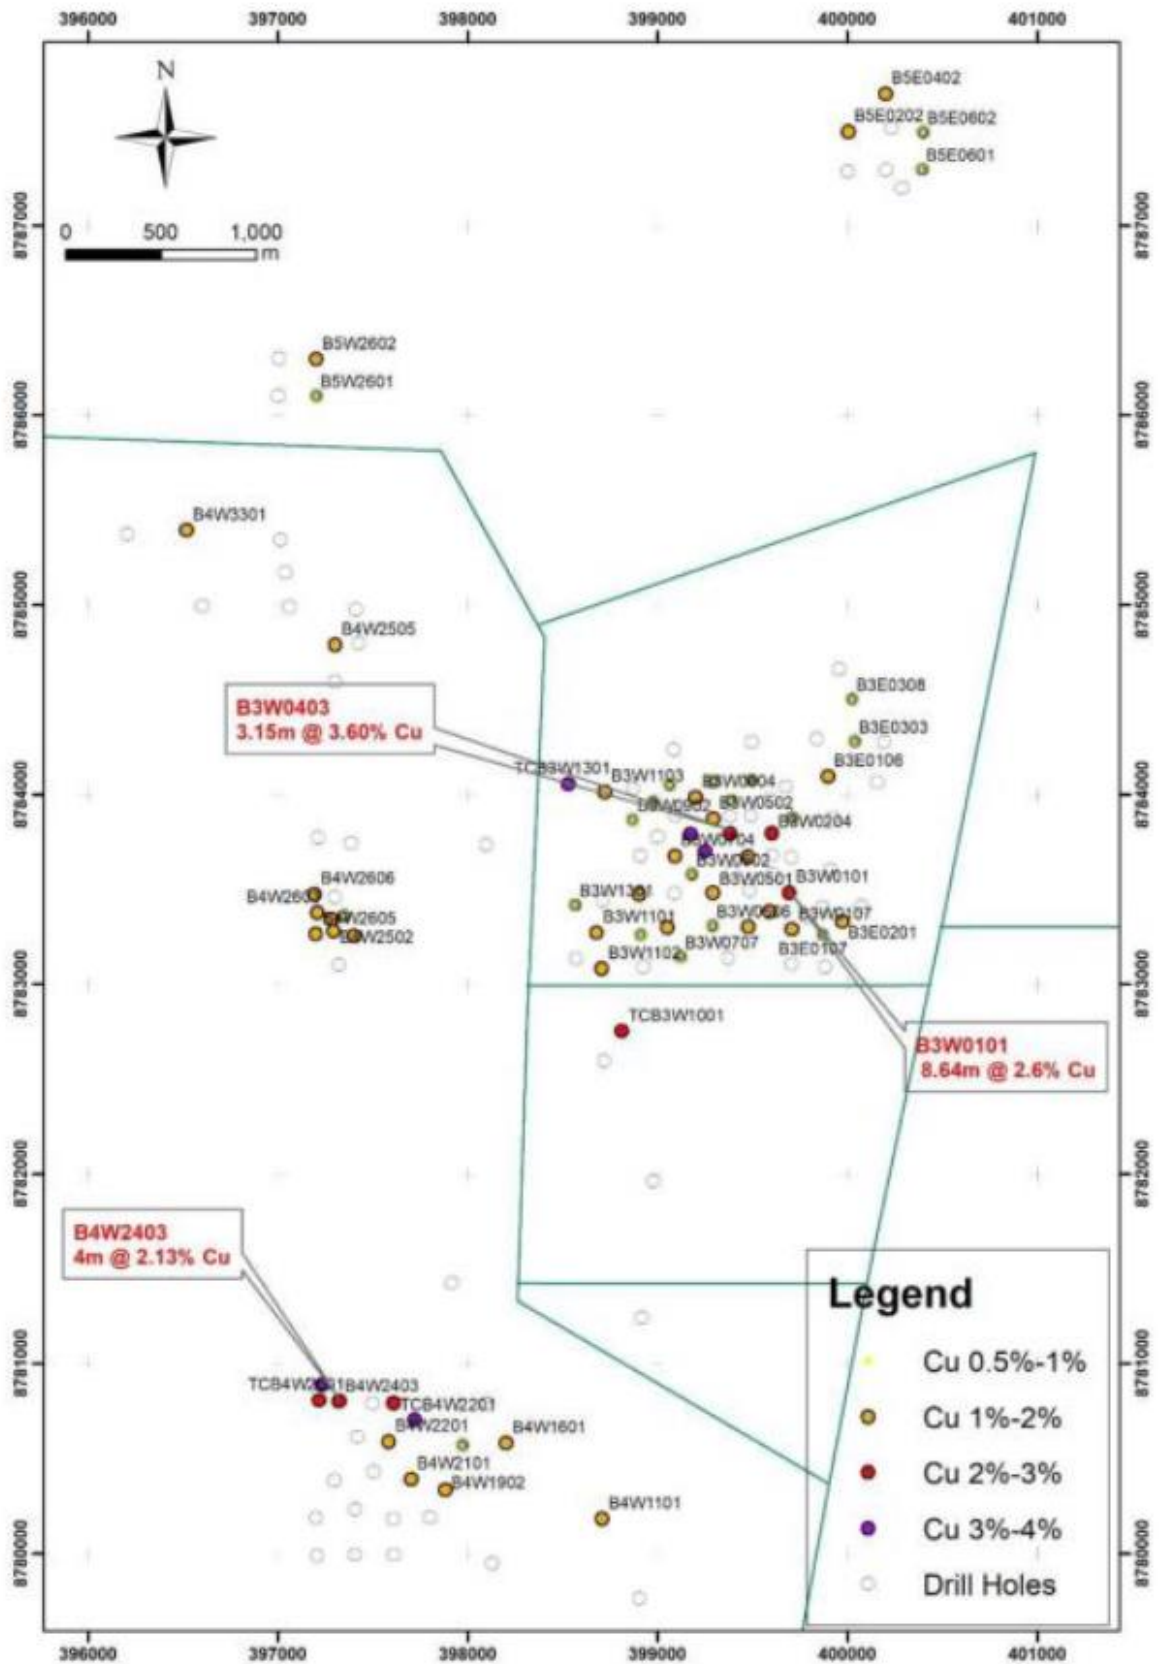

Figure 2: Map illustrating assay results for Phases 1 and 2

For personal use only

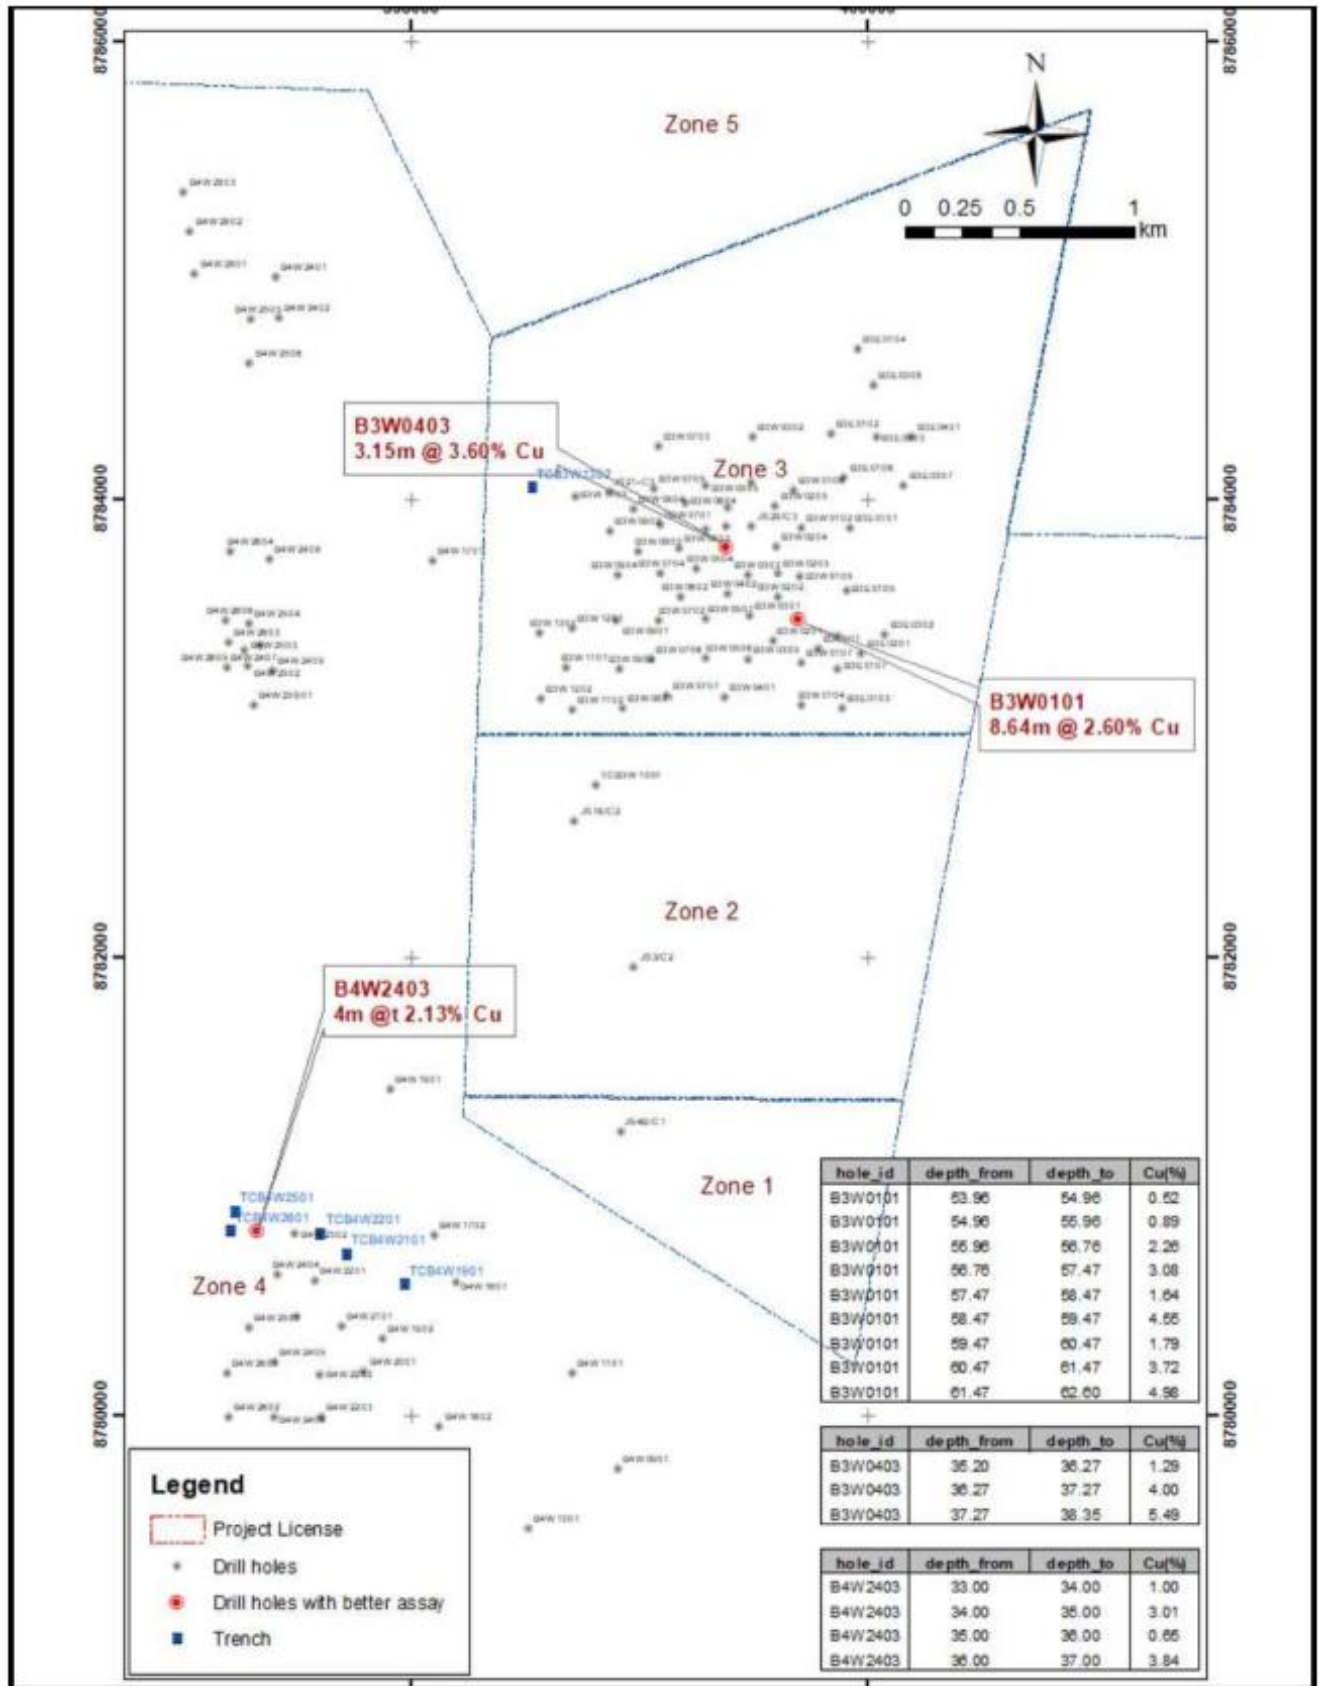

Figure 3: Map of drill hole locations with results of three best holes of Phase 2 overlaid

- On 26 November 2020, VDM announced its maiden copper Mineral Resource Estimate for CdB Copper Project of 18.4 Mt @ 1.0% Cu for 183,845t of copper, comprising:
 - Measured + Indicated: 13.467Mt @1.02% Cu for 137,590t of copper;
 - Inferred: 4.937Mt @0.94% Cu for 46,355t of copper.
- The CdB MRE is summarised as follows:

Resource Category	Million tonnes (Mt)	Cu %	Contained Cu (t)
Measured	0.875	1.62	14,179
Indicated	12.592	0.98	123,411
Inferred	4.937	0.94	46,355
Total	18.404	1.00	183,845

Notes: 1. Reported above a Cu cut-off grade of 0.2%;
 2. Discrepancies may occur due to rounding.

- The exploration database used for the resource estimation consists of 134 diamond coreholes and 7 trenches. A total of 1,658 intervals were sampled at the deposit. All the available data was input into a Geovia Surpac (Surpac) database for the estimation procedure.

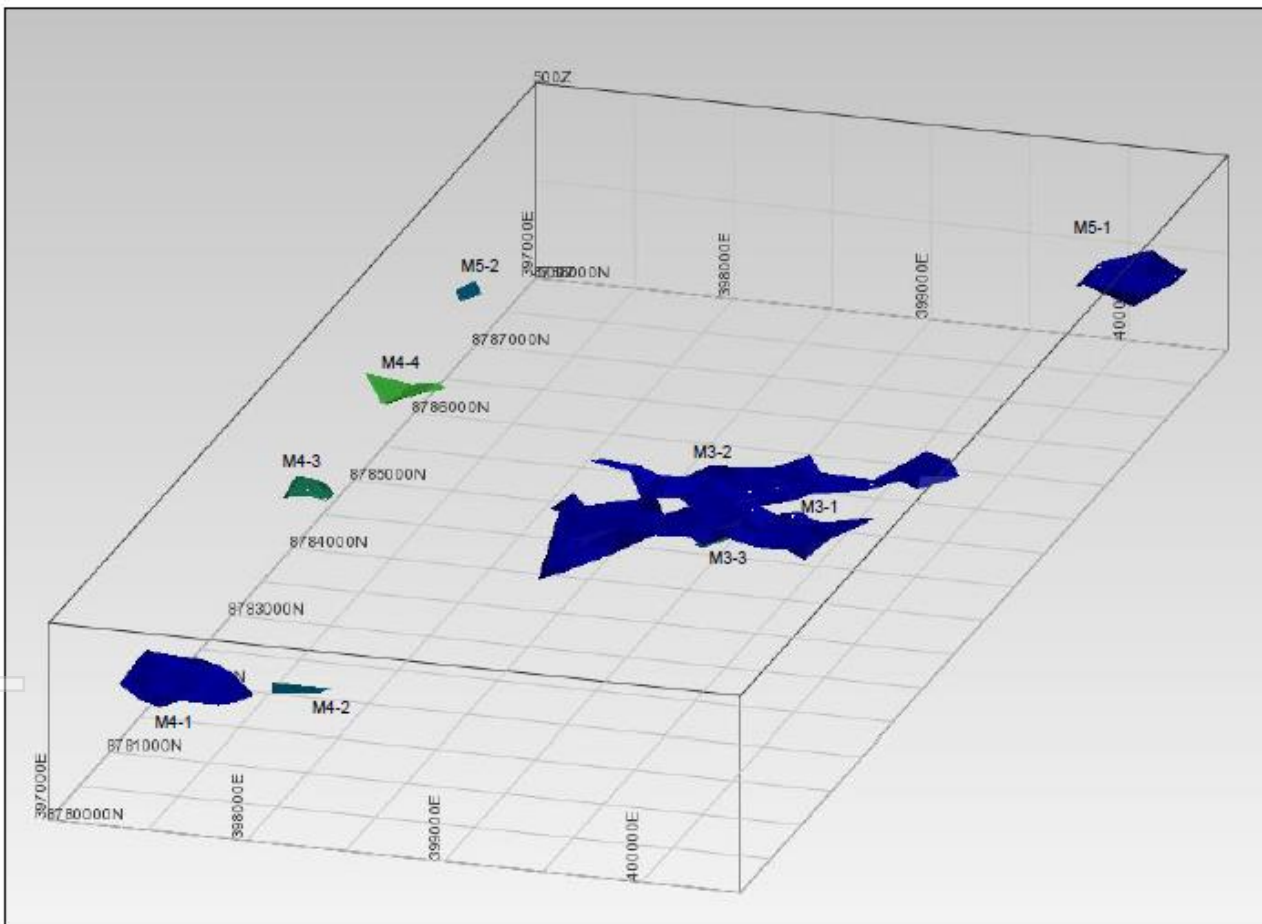

Figure 4: Three-Dimensional View of Mineralised Bodies, of which M3-1 is the largest

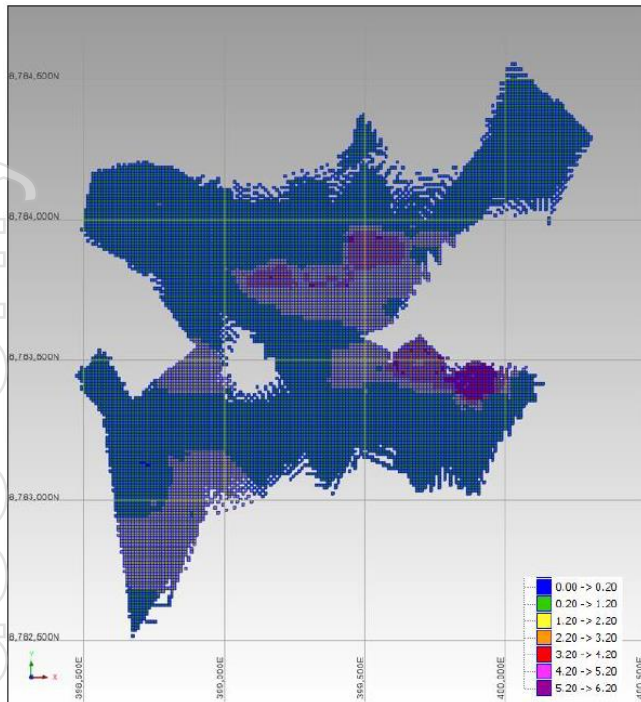

Figure 5: Plan View of Block Model for Mineralised Body 3-1

Figure 6: Resource Categories of Mineralised Body M3-1

Cut-off Grades

A cut-off grade of 0.2% Cu has been chosen to represent the portion of the resource that may be considered for eventual economic extraction by open-pit mining and can be processed into copper concentrate. This cut-off grade was selected by VDM in consultation with SRK and SDGM based on experience with similar sediment hosted copper deposits and is consistent with reporting cut-off grades used in recent large-scale global copper estimates.

Mining Factors

SRK considers that portions of the CdB mineralisation are amenable to open pit extraction. In order to determine the quantities of material offering “reasonable prospects for eventual economic extraction” by an open pit, SRK used a set of mining and processing assumptions/parameters provided by VDM, in consultation with SDGM, to evaluate the proportions of the block model (Measured, Indicated and Inferred blocks) that could be “reasonably expected” to be mined from open pit.

Metallurgical Factors

The mineralisation is assumed to be copper sandstone and samples for metallurgical testing have been taken, however testing has not yet been completed. VDM, in consultation with SDGM, considers that the copper ore can be economically extracted by open-pit mining and can be processed into copper concentrate with a grade of 20% Cu and recovery rate of 85%.

Note: On-the-ground activity at the CdB Project presently is suspended due to travel restrictions and safety concerns arising from the COVID-19 pandemic.

Appendix 2: About Cage Bengo Gold Project

- In August 2019, VDM entered into a Mining Investment Contract (MIC) providing exclusive rights to explore for gold and other minerals at the Cage Bengo Project located in Angola.
- VDM's ownership interest in the Cage Bengo Project is 55.25%.
- The Cage Bengo Project covers an extremely large area of approximately 9,904km² and is located in the north-west of Angola – refer location map below.

Location

The Cage Bengo Project is located in the north-west of Angola between the provinces of Uige and Bengo, from which it derives its name, and is approximately 300km north-east of the capital city of Luanda. Luanda is Angola's capital and its largest city. It is Angola's primary port and its major industrial, cultural and urban centre.

Access to the Project is via the road that connects the city of Caxito to Muxiluando (Nambuanguo Municipality headquarters) with the city of Uige (Capital of Uige Province).

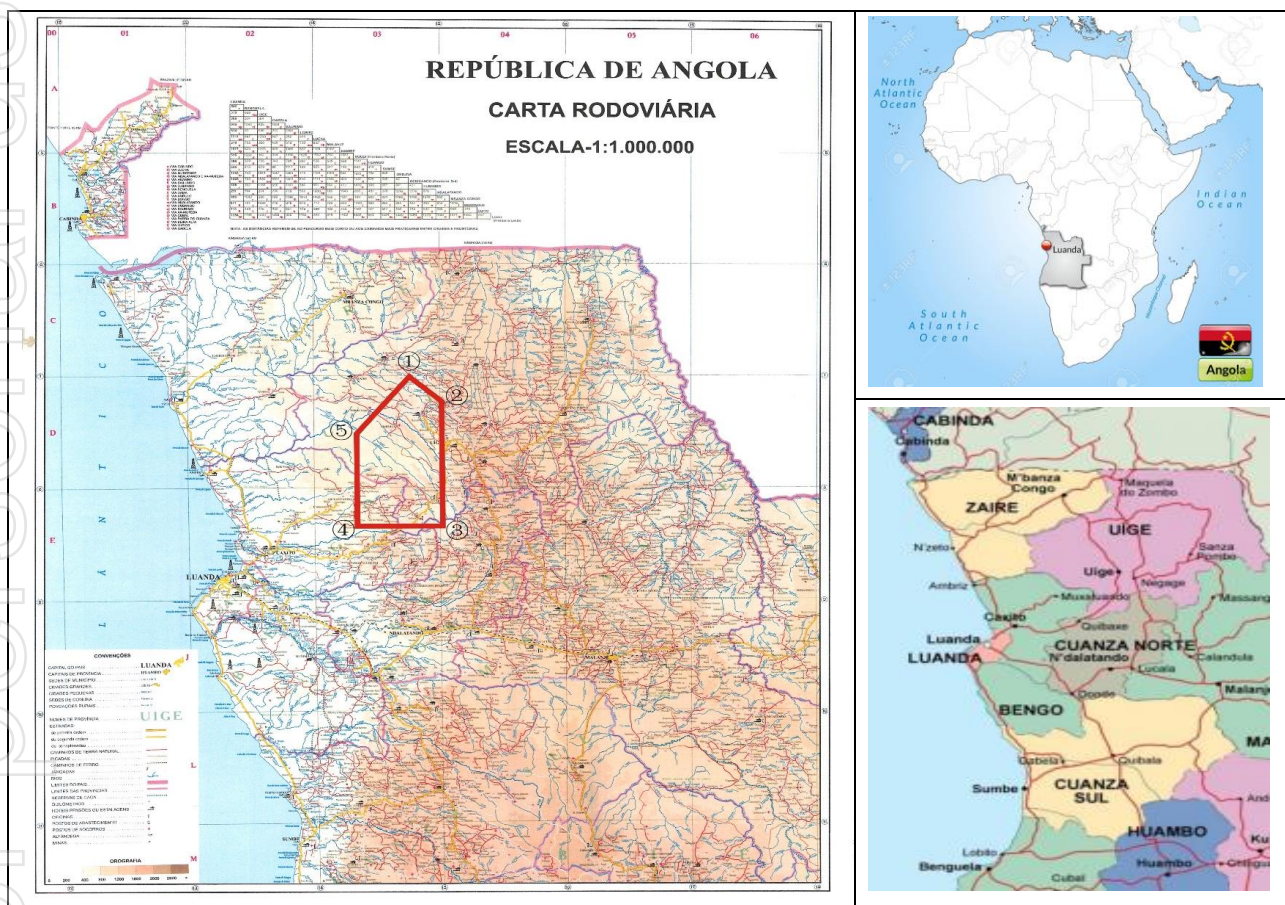

Figure 2 – Location of Cage Bengo Project

Work Performed by VDM

- On 15 April 2020, Prospecting Title 048/07/03 over the Cage Bengo Project was issued by the Angolan Government, allowing work to commence.
- However, since the Prospecting Title was issued, no on-the-ground activity at the Cage Bengo Project has been possible with all activities remaining suspended due to travel restrictions and safety concerns arising from the COVID-19 pandemic.
- Work presently is limited to planning and desk-top studies.

Note: On-the-ground activity at the Cage Bengo Gold Project presently is suspended due to travel restrictions and safety concerns arising from the COVID-19 pandemic.

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

The payment made to directors of the entity and their associates reported at 6.1 relate to directors' fees (inclusive of superannuation) and consulting fees; comprised as follows:

Name	Position	\$	Notes
Mr Luk	Non-Executive Chairperson	-	Salary inclusive of superannuation
Dr Hua	Executive Director	-	Salary inclusive of superannuation
Mr Guo	Non-Executive Director	-	Salary inclusive of superannuation
Mr Noid	Non-Executive Director	-	Salary inclusive of superannuation
Mr Fry	Director, Company Secretary	22,187	Director fee plus consulting fee for provision of company secretarial (Mar - Jun 2021)
		22,187	

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7. Financing facilities	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
<i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i>		
<i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>		
7.1 Loan facilities	10,532	10,532
7.2 Credit standby arrangements	0	0
7.3 Other (please specify)		
- Bank guarantees	0	0
7.4 Total financing facilities	10,532	10,532
7.5 Unused financing facilities available at quarter end		0
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.	
	<p>Loan facilities relate to loans provided by Australia Kengkong Investments Co Pty Ltd, VDM's largest shareholder and a company owned and control by Chairman Hiuming Luk. The loans were advanced under the terms of a Framework Loan Agreement which stipulates an interest rate of 6% per annum, and a default rate of interest of 20% in the event of default by VDM. The loans are secured over the assets of the Company and no maturity date has been set. For further information refer Page 50 of the Company's Annual Report for the year ended 30 June 2020.</p> <p>Credit standby facilities relate to credit cards.</p> <p>Bank guarantees relate to guarantees given in relation to office lease.</p>	

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(150)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(150)
8.4 Cash and cash equivalents at quarter end (item 4.6)	1,350
8.5 Unused finance facilities available at quarter end (item 7.5)	0
8.6 Total available funding (item 8.4 + item 8.5)	1,350
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	9.00
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?
	Answer: N/a

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: N/a

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/a

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

MICHAEL FRY (DIRECTOR)

Authorised by:
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

For personal use only
