VDM GROUP LIMITED

DIRECTORS' REPORT

FOR THE HALF YEAR ENDED 31 DECEMBER 2021

Your directors submit their report of VDM Group Limited ("the Company") and of the Consolidated Entity, being the Company and its controlled entities ("VDM" or "the Group") for the half year ended 31 December 2021.

1. BOARD COMPOSITION

The names and details of the directors of VDM Group Limited in office during the half year and until the date of this report are set out below. Each director was in office for this entire period unless stated otherwise.

Mr Luk Hiuming

Non-executive Chairman

Appointed Non-executive Director on 21 March 2014, appointed Non-executive Chairman on 29 January 2015

Member of the Audit & Risk Committee

Dr Hua Dongyi

Executive Director of Mining

Appointed Director on 28 August 2013, appointed Managing Director on 9 September 2013, appointed Executive Chairman and Interim CEO on 29 November 2013, appointed Managing Director and CEO on 29 January 2015, resigned as Managing Director and CEO and appointed Executive Director of Mining on 1 March 2016.

Member of the Audit & Risk Committee

Mr Michael Fry

Executive Director

Appointed 3 June 2011

Chairman of the Audit & Risk Committee

Mr Colin Noid

Non-executive Director

Appointed Non-executive director on 1 April 2021

Mr Huadong Guo

Non-executive Director

Appointed Non-executive director on 23 February 2021

COMPANY SECRETARY:

Mr Michael Fry

Appointed 9 February 2018

2. NATURE AND PRINCIPAL ACTIVITIES

VDM's business activities during the period principally related to:

- exploration of the Cachoeiras do Binga copper project located in the Republic of Angola (**Cachoeiras do Binga**) supported by VDM's project partners and the Government of Angola;
- exploration of the Cage Bengo Project located in the Republic of Angola (**Cage Bengo**) supported by VDM's project partners and the Government of Angola; and
- review of its property portfolio and preparation of its Mandurah apartment for sale.

VDM is no longer seeking project opportunities connected with VDM's historical Construction Division but retains its capability to undertake project work if a suitable opportunity is presented. VDM's Trading Division has not operated for a number of years and remains dormant. VDM is unlikely to pursue opportunities and no longer classifies Trading as an operating and reporting segment.

The business activities of the comparative period principally related to: 1) exploration of the Cachoeiras do Binga; 2) exploration of the Cage Bengo Project; and 3) investigation of other project opportunities connected with VDM's Mining and Construction divisions.

VDM GROUP LIMITED DIRECTORS' REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2021

3. OPERATING AND FINANCIAL REVIEW

Cachoeiras do Binga Copper Project

The Cachoeiras do Binga (**CdB**) Copper Project is located east of the regional capital and coastal city of Sumbe (airport and port) and approximately 385 km south of the Angolan capital city of Luanda.

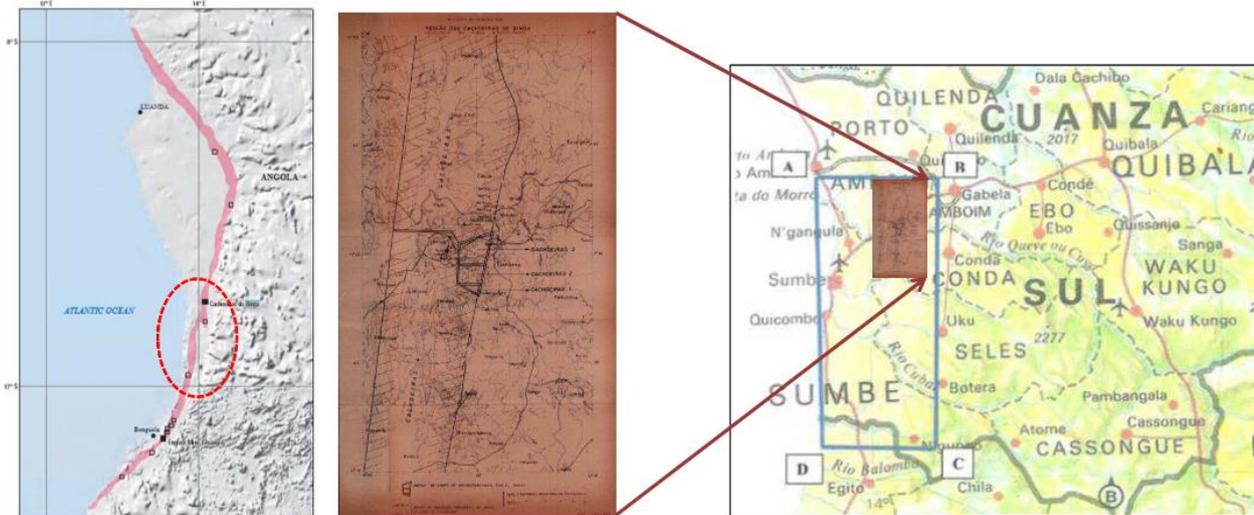

Figure 1: Location Map - CdB Project

The CdB Project covers an extremely large area of 3,854km² and is approximately 32kms from East to West and 129kms from North to South and shows characteristics of a typical central African sediment-hosted copper deposit. It is highly prospective for copper mineralisation with historical work having demonstrated copper occurrences throughout the tenement area.

Historical Work Performed

Prior to VDM's involvement in CdB, exploration activity whilst significant had been sporadic and limited to small parts of the overall CdB Copper Project area; with much of it not reportable under the current JORC reporting standards applicable to Australian Stock Exchange listed companies.

Between 1920 and up to the late 1950's the United States Government Survey Company (USGS) conducted stream sampling analysis across much of sub-Saharan Africa including Angola and specifically over the CdB Project and was the first group to report elevated copper levels at CdB.

Building on this work, during the 1970's, the Institute of Geology in Angola (IGEO) undertook further mapping, sampling and some drilling, which was largely concentrated in the areas commonly referred to as Areas 1, 2 and 3 and published estimates of copper mineralisation.

In 1983, the United Nations Development Programme (UNDP) re-evaluated the copper deposits in the CdB area, confirming IGEO's estimations of copper mineralisation in Areas 1, 2 and 3. In addition, the UNDP interpreted that the copper extended to the west and to the north.

Since VDM's involvement from 2016, work initially focussed on confirming previous findings for copper mineralisation so as to report under JORC guidelines and extending the known copper mineralisation to the west, north and to the south.

Phase One drilling conducted in 2018 focussed on Areas 1, 2 and 3 (central), and Phase Two drilling conducted during 2019 focussed on Area 4 (west) and Area 5 (south).

The drilling was successful in its objectives confirming the copper mineralisation in Areas 1, 2 and 3 as identified in earlier work conducted by USGS, IGEO and UNDP and identifying copper mineralisation both to the west and to the south; and culminated in VDM announcing, on 26 November 2020, its maiden copper Mineral Resource Estimate for CdB Copper Project of 18.4 Mt @ 1.0% Cu for 183,845t of copper, comprising:

- Measured + Indicated: 13.467Mt @1.02% Cu for 137,590t of copper;
- Inferred: 4.937Mt @0.94% Cu for 46,355t of copper.

VDM GROUP LIMITED
DIRECTORS' REPORT
FOR THE HALF YEAR ENDED 31 DECEMBER 2021

The CdB MRE is summarised as follows:

Resource Category	Million tonnes (Mt)	Cu %	Contained Cu (t)
Measured	0.875	1.62	14,179
Indicated	12.592	0.98	123,411
Inferred	4.937	0.94	46,355
Total	18.404	1.00	183,845

Notes: 1. Reported above a Cu cut-off grade of 0.2%;
2. Discrepancies may occur due to rounding.

The exploration database used for the resource estimation consists of 134 diamond coreholes and 7 trenches. A total of 1,658 intervals were sampled at the deposit. All the available data was input into a Geovia Surpac (Surpac) database for the estimation procedure.

Work Performed during the Half Year

During the half year to 31 December 2021, all on the ground exploration activity remained suspended due to the COVID-19 pandemic with the Company viewing it as unsafe for its personnel with Angola having in place a state of calamity and restricting travel both into and within the country as it deals with a high incidence of infection.

Work was focussed on desk-top review of historical information and discussions with potential partners who have demonstrated interest in being involved in the CdB Project in some capacity. The nature of these discussions have not yet reached a stage where disclosure is necessary.

Cage Bengo Project

In August 2019, the Company executed a Mining Investment Contract providing exclusive rights to explore for gold and other minerals at the Cage Bengo Project located in the Republic of Angola.

By entering into the Mining Investment Contract, VDM acquired a 55.25% ownership interest. On 20 August 2019, VDM issued to Seabank Resources Ltd 650 million fully paid shares in relation to the acquisition of its ownership interest.

On 15 April 2020, Prospecting Title 048/07/03 over the Cage Bengo Project was issued by the Angolan Government, allowing work to commence.

However, since the Prospecting Title was issued, no on-the-ground activity at the Cage Bengo Project has been possible with all activities remaining suspended due to travel restrictions and safety concerns arising from the COVID-19 pandemic.

Work presently is limited to planning and desk-top studies.

Other

Neither the Construction or Trading division took on no new work during the half-year with VDM no longer investigating project opportunities connected with VDM's historical Construction and Trading divisions.

VDM has owned an apartment in The Palladio Apartments complex in Mandurah, Western Australia for a number of years, which it has rented out. With the tenant exiting the lease in late February 2022, the Company has taken the decision to list the apartment for sale to take advantage of the significant market interest that currently exists. In prior periods, the Mandurah apartment has been recognised as an investment property in non-current assets, but as a consequence of the decision to list for sale has been recognised at 31 December 2021 as an asset held for resale.

Financial Review

Revenue from continuing operations of \$Nil (2020: \$555,000) is 100% lower than the comparative period. The Company currently has no income generating activities. The revenue in the corresponding prior period relates to primarily gains from foreign currency exchange rate movements.

Total expenses from continuing operations of \$678,000 (2020: \$764,000) show a decrease of 8.9% from the comparative period and reflect management's efforts to curtail administration costs whilst exploration activities remain suspended.

Cash decreased by \$284,000 in the half year with negative cash flow from operating activities of \$284,000.

VDM GROUP LIMITED DIRECTORS' REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2021

COVID-19

The COVID-19 pandemic continues to impact countries worldwide, but after two years there appear to be signs that the world is moving forward and returning somewhat to what was considered normal activity prior to the pandemic.

outbreak continues to evolve at the date of this report. The Group is therefore uncertain as to the full impact that the pandemic will have on its financial condition, liquidity, and future results of operations during FY2022.

Management has actively managed the global situation and its impact on the Group's financial condition, operations, and workforce. Due to the termination of flights, closures of borders and various measures being imposed by governments in relation to the pandemic, the Group decided in March 2020 that it is prudent to suspend its Angolan exploration activities.

Although the Group cannot fully estimate the length or gravity of the COVID-19 effect, from its initial assessment, the impact over the next 12 months does not appear to be significant, indicating the entity will be able to continue as a going concern.

4. SIGNIFICANT EVENTS AFTER THE BALANCE DATE

No matters or circumstances have arisen since the end of the half-year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years, other than the following.

Mandurah Apartment

The Company has owned an apartment in The Palladio Apartments complex in Mandurah, Western Australia for a number of years which it has leased out. The apartment has previously classified in the Company's accounts as an investment property but is now classified as held for resale following a decision to sell. With the tenant having vacated in February 2022, the Company is currently readying the apartment for sale and intends to soon execute a listing agreement.

5. AUDITOR'S INDEPENDENCE DECLARATION

The auditor's independence declaration is set out on page 6 and forms part of the Directors' Report for the half year ended 31 December 2021.

Rounding

The amounts contained in this report and in the financial report have been rounded to the nearest \$1,000 (where rounding is applicable) under the option available to the Company under ASIC Instrument 2016/191. The Company is an entity to which the Instrument applies.

Signed in accordance with a resolution of the directors.

Michael Fry
Director
Perth, Western Australia
16 March 2022

To the Board of Directors,

AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001

As lead audit Director for the review of the financial report of VDM Group Limited for the half-year ended 31 December 2021, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- any applicable code of professional conduct in relation to the review.

VDM GROUP LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE HALF YEAR ENDED 31 DECEMBER 2021

1. BASIS OF PREPARATION AND ACCOUNTING POLICIES

(a) Corporate information

The interim consolidated financial statements of VDM Group Limited (the "Company") and its controlled entities ("VDM" or the "Group") for the half year ended 31 December 2021 were authorised for issue in accordance with a resolution of the directors on * March 2022.

VDM Group Limited is a for-profit entity limited by shares incorporated and domiciled in Australia whose shares are publicly traded on the Australian Securities Exchange ("ASX").

VDM's business activities during the period principally related to:

- exploration of the Cachoeiras do Binga copper project located in the Republic of Angola (**Cachoeiras do Binga**) supported by VDM's project partners and the Government of Angola;
- exploration of the Cage Bengo Project located in the Republic of Angola (**Cage Bengo**) supported by VDM's project partners and the Government of Angola; and
- review of its property portfolio and preparation of its Mandurah apartment for sale.

VDM is no longer seeking project opportunities connected with VDM's historical Construction Division but retains its capability to undertake project work if a suitable opportunity is presented. VDM's Trading Division has not operated for a number of years and remains dormant. VDM is unlikely to pursue opportunities and no longer classifies Trading as an operating and reporting segment.

(b) Basis of preparation

The interim consolidated financial statements for the half year ended 31 December 2021, represent a general purpose financial report prepared in accordance with AASB 134 Interim Financial Reporting and the Corporations Act 2001.

The interim consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual consolidated financial statements as at 30 June 2021 and any public announcements made by VDM during the interim reporting period in accordance with the continuous disclosure requirements of the ASX listing rules.

(c) New and amended accounting standards and interpretations

The accounting policies adopted in the preparation of the interim consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 30 June 2021.

The Group has adopted all Australian Accounting Standards and Interpretations effective from 1 July 2021. The adoption of new and amended standards and interpretations had no impact on the financial position or performance of the Group.

The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

(d) Assets (or disposal groups) held for sale and discontinued operations

Assets (or disposal groups) are classified as assets held for sale and carried at the lower of carrying amount and fair value less costs to sell if their carrying amount is recovered principally through a sale transaction rather than through continuing use. The assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Any impairment loss on initial classification and subsequent increase in fair value less costs to sell up (not exceeding the accumulated impairment loss that has been previously recognised) is recognised in the income statement.

A discontinued operation is a component of an entity that either has been disposed of, or that is classified as held for sale, and

- a) represents a separate major line of business or geographical area of operations
- b) Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations: or
- c) Is a subsidiary acquired exclusively with a view to resale.

VDM GROUP LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE HALF YEAR ENDED 31 DECEMBER 2021

(e) Going Concern

VDM incurred a net loss after tax from continuing operations for the half year ended 31 December 2021 of \$678,000 (2020: \$209,000). Net cash outflows used in operating activities were \$284,000 (2019: \$650,000). At 31 December 2021, VDM had net current liabilities of \$13,600,000 (30 June 2021: \$14,144,000). The cash balance of VDM at 31 December 2021 was \$1,349,000 (30 June 2021: \$1,633,000) with a further \$20,000 of security deposits held (30 June 2021: \$20,000).

This report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

VDM will require further capital funding:

- to progress its business strategy including the Cachoeiras do Binga and Cage Bengo exploration programs;
- to pursue other business growth opportunities;
- to settle shareholder loans; and
- for general working capital including payment of trade and other payables, and provisions that become due.

In forming this view, the directors have taken into consideration that the Group expects:

- to sell its Mandurah apartment and realise \$1.215 million;
- to undertake future successful capital raisings sufficient to meet the above noted funding requirements; and
- VDM's largest shareholder, Australia Kengkong Investments Co Pty Ltd, will not demand repayment of amounts due under the Framework Loan Agreement until VDM completes sufficient capital raisings; and
- VDM's Cachoeiras do Binga joint venture partner Seabank Resources LDA not demanding repayment of outstanding amounts until the Group completes a significant capital raising or when the group's financial status has a significant improvement; and
- as a result of the Covid 19 with the termination of flights, closures of borders and various measures being imposed by governments in relation to the pandemic, the Group decided in March 2020 that it is prudent to suspend its Angolan exploration activities.

Should VDM not achieve the matters set out above, there is material uncertainty as to whether VDM will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report. The financial report does not include any adjustment relating to the recoverability or classification of recorded asset amounts or to the amounts or classifications of liabilities that may be necessary should VDM not be able to continue as a going concern.

(f) Significant Accounting Judgements, Estimates and Assumptions

Preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements and estimates on historical experience and on other various factors it believes to be reasonable under the circumstances, the result of which form the basis of the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Management has not identified any critical accounting policies for which judgement, estimates and assumptions are made, which are in addition to the significant judgements, estimates and assumptions identified in the preparation of the Group's half year consolidated financial statements for the period ended 31 December 2021.

VDM GROUP LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE HALF YEAR ENDED 31 DECEMBER 2021

2. SEGMENT INFORMATION

VDM is arranged under three operating divisions: i) construction, ii) mining and iii) property. Refer to the "Review and Results of Operations" in the Directors' Report for an overview of the three operating divisions.

The accounting policies adopted for the reported segments are consistent with those followed in the preparation of the Group's financial statements for the year ended 30 June 2021, except that VDM has added Property as an operating and reporting segment during the half year ended 31 December 2021.

VDM is no longer seeking project opportunities connected with VDM's historical Construction Division but retains its capability to undertake project work if a suitable opportunity is presented. Accordingly, VDM continues to include Construction as an operating and reporting segment

VDM is unlikely to pursue opportunities and no longer classifies Trading as an operating and reporting segment.

The following table presents the revenue, profit and selected balance sheet information for the Group's reportable segments for the half year ended 31 December 2021.

	Construction \$000	Mining \$000	Property \$000	Unallocated \$000	Total \$000

Temporary differences and unrecognised tax losses	10	57
Aggregate income tax expense	-	-

b) Tax losses

VDM Group has recognised a deferred tax asset of nil (31 December 2020: nil) for Australian income tax purposes on the basis that it is not 'probable' that the carried forward revenue loss will be utilised against future assessable taxable profits.

Utilisation of the carried forward tax losses by the company is subject to satisfaction of the Continuity of Ownership Test ("COT") or, failing that, the Same Business Test ("SBT"). It is likely that VDM has failed COT during the 2015 financial year, therefore in order to be able to utilise the pre-2016 losses in the future, VDM may be required to satisfy the SBT. Where VDM derives assessable income in a future income year, an assessment of whether the same business has been carried on between just before the COT failure and the intervening period will determine whether the losses are available for utilisation.

c) Tax consolidation

Members of the tax consolidation group and the tax sharing arrangement

VDM Group Limited and its 100% owned Australian resident subsidiaries formed a tax consolidated group with effect from 1 July 2004. VDM Group Limited is the head entity of the tax-consolidated group. Members of Group have entered into a tax sharing agreement that provides for the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations.

19. RELATED PARTY DISCLOSURES

Transactions with key management personnel

Luk Hiuming

As at 31 December 2021, VDM owed \$98,000 to Mr Luk related to directors fees that have not been paid on his instruction (30 June 2021: \$65,000). No interest accrues and the outstanding amount is due when demanded by Mr Luk. The amount due to Mr Luk is included in trade and other payables (note 11).

Kengkong

On 27 January 2016, VDM entered into a Framework Loan Agreement ("FLA") with its largest shareholder, Australia Kengkong Investments Co Pty Ltd ("Kengkong"). VDM's Non-executive Chairman Mr Luk controls Kengkong. The FLA contemplates the parties entering into a secured one-year 6% loan facility that will incorporate the FLA liabilities. Until that occurs, the FLA advances plus interest accrued at 6% per annum are immediately repayable in the denominated currency when demanded by Kengkong. There were no drawings under the FLA during the reporting period. The amounts due under the FLA are included in interest-bearing loans and other borrowings (note 12).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE HALF YEAR ENDED 31 DECEMBER 2021

20. COMMITMENTS AND CONTINGENCIES

There are no commitments and contingencies to disclose for the half year ended 31 December 2021.

21. SIGNIFICANT EVENTS AFTER THE BALANCE DATE

No matters or circumstances have arisen since the end of the half-year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

22. FAIR VALUE

At 31 December 2021 there are no financial assets or financial liabilities which are accounted for at fair value, with the exception of the item referred to below. Carrying amounts approximate the fair value of financial assets and financial liabilities presented in the Consolidated Statement of Financial Position.

Assets held for resale – Mandurah Apartment

Included in the Consolidated Statement of Financial Position at fair value is the Company's Mandurah apartments which is valued at the expected sale price based upon real estate agents' advice and recent comparative sales less costs to undertake minor repairs, market and sell.

**VDM GROUP LIMITED
DIRECTORS' DECLARATION
FOR THE HALF YEAR ENDED 31 DECEMBER 2021**

In accordance with a resolution of the directors of VDM Group Limited, I state that:

In the opinion of the directors:

- (a) the financial statements and notes of the consolidated entity are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 31 December 2021, and of its performance for the half year ended on that date; and
 - (ii) complying with Australian Accounting Standard 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*; and
- (b) Subject to the satisfactory achievement of the matters described in note 1(d), there are reasonable grounds to believe that the consolidated entity will be able to pay its debts as and when they become due and payable.

On behalf of the Board

Michael Fry
Director
Perth, Western Australia
16 March 2022

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF VDM GROUP LIMITED

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of VDM Group Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 31 December 2021, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half-year financial report of the Group is not in accordance with the Corporations Act 2001, including:

- a) giving a true and fair view of the consolidated financial position of the Group as at 31 December 2021 and of its consolidated financial performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Emphasis of Matter – Material uncertainty related to going concern

We draw attention to Note 1(e) in the half-year financial report which describes the principal conditions that raised doubt about the Group's ability to continue as a going concern. These events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Directors' Responsibility for the Half-Year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, anything has come to our attention that causes us to believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the Group's consolidated financial position as at 31 December

2021 and its consolidated financial performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of the Group, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the Corporations Act 2001.
